+ Sr. Art Director/

Dynamic, detail-oriented designer/developer with 13+ years of outstanding achievement in designing, developing, and managing creative solutions. Qualified by effectively identifying and/or shaping brands and messages for clients target audiences, and the effective implementation of those things in a variety of media and roles. The success of which has relied heavily upon collaboration with other people, and the ability to successfully function in a fast-paced, fluctuating environment.

+ Experience/

10/2008 – Present **Factory Design Labs** **Denver, CO**

Sr. Art Director:

Responsible for leading and mentoring Jr. designers as well as producing inspired creative solutions for clients in such a way that it makes us an indispensable partner to them. I help build brands and brand recognition through creative conceiving and application. I maintain and/or manage design directives from start to finish, whether that's between internal teams, or outside vendors, or in many cases both.

06/2008 – 10/2008 **Crispin Porter + Bogusky** **Boulder, CO**

Sr. Interactive Designer:

Responsible for attending client meetings, communicating the client's needs to the rest of the team, and making sure that the overall design goals are kept in mind through all stages of a given project. Manage, design, develop, and deliver on my own projects, while directing those of Jr. level designers. Maintain collaboration between design department and other teams. Help create design standards and guidelines as they pertained to company objectives.

03/2006 – 06/2008 **Texture Media** **Boulder, CO**

Art Director:

Responsible for creative solutions and concepts that would bring added value to client's interactive projects, while keeping in mind a client's strategy and marketing objectives. Made decisions about what technologies would help us best achieve the desired result for a given concept and the specified target audience. Worked with the rest of the team to successfully execute concepts from the storyboarding phase through testing and delivery.

07/2004 – 12/2005 **NOD interactive** **Boulder, CO**

VP of RGB:

Created estimates for clientele based on their particular needs. Conceptualized and executed designs based on those needs. I was responsible for all scheduling and billing as it pertained to my specific clients. This work included, but was not limited to: storyboarding, flash design and development, logo design, icon design and development, web/intranet/extranet design and development, presentation design, interactive CD design and development, some print, sound editing and development, some 3D modeling, and cartooning/illustration design and development.

01/2002 – 07/2004 **Leopard** **Boulder, CO**

New Media Specialist

05/1999 – 10/2001 **Level 3 Communications** **Denver, CO**
